1. Logo

Always use the official logo files from the Brand Assets folder. Keep a clear space around the logo equal to the height of the letter "H" in the wordmark. The minimum logo width is 120 pixels on screen and 25 millimeters in print. Never stretch, rotate, recolor, or add effects to the logo.

2. Colors

Name	Hex	Usage
Helios Orange	#F26B1D	Primary brand color, calls to action
Midnight Navy	#14213D	Headlines and dark backgrounds
Cloud Gray	#E5E5E5	Backgrounds and dividers
Signal Teal	#1B998B	Charts and secondary accents

3. Typography

The primary typeface is Inter for all digital and print materials. Headlines use Inter Bold; body text uses Inter Regular at a minimum of 14 pixels on screen. Use Georgia only for long-form printed reports.

4. Voice and Tone

Helios writes clearly, confidently, and without jargon. Prefer short sentences and active voice. Write "supply chain" as two words and "Helios" without "Inc." except in legal text. Never use competitor names in marketing materials without Legal approval.
